

## **The StanCOG Transportation Model Update**

### **Pre-proposal Guidelines**

**(Also Available on the StanCOG website)**

**1.) Please describe how your firm will collect trip data in Stanislaus County by mode; then, how will you deploy these findings in a mode choice component that you will construct for the StanCOG transportation model.**

**2.) Please describe how the mode choice component and the modal data be used to address current transportation policy issues by mode including transit, transit express, HOV, park n ride, bike and walk, BRT and SOV.**

**(Note: StanCOG or one or more of its jurisdictions may wish to apply for “small start or new start funding” through FTA).**

**3.) Please describe how your firm will account for origin-destination data in a typical workday at Stanislaus County’s gateways (SR-99,I-5,SR-132,SR120 and SR-165); then, how will you update these findings in the StanCOG transportation model?**
